

Directions:

Click on the triangle to the right of the -----Species-----, -----Location-----, -----Collector-----, -----Identifier-----, and the list of appropriate names shows up. Choose a name and click to select. You must enter the date in the required format. You can also type in the common name, habitat info etc or enter a different item by selecting the last choice on the list (blank). There is room in the ancillary habitat info and associated records for two lines of information.

After all the information is typed in, the form can be printed, cut and put on the herbarium specimen.
